# UniStem Day

Wissen und Innovation:  
Die endlose Reise  
der Stammzellforschung

uniStem  
University Group of Milano Centre of Research and Culture Sciences

**Generations  
in the world  
united  
by science**

The day aims to be an opportunity for learning, discovery and comparison on scientific research starting from stem cells. Experiences related to research, to be scientist day by day, and to the mechanisms of knowledge-building that contributes to technological progress will be debated.

The event will take place in 101 Universities and Research Institutes worldwide in Australia, Austria, Colombia, France, Germany, Greece, Holland, Hungary, Italy, Poland, Portugal, Spain and Sweden. 13 countries, 3 continents and 30,000 students: all together ready to join the infinite trip of scientific research!

in collaboration with  
**FONDAZIONE  
TIM**

## THE EVENT WILL HAPPEN IN 13 COUNTRIES
